

Clinicas Del Camino Real, Inc. celebrates 3rd Annual National Health Center Week

Health Fair & Many Other Activities!

“Celebrating America’s Health Centers: Where ACCESS and QUALITY CARE Begin” is the theme for National Health Center Week 2009. It highlights the record of Health Centers in providing affordable, high quality, cost-effective health care to anyone who needs it. The second week of August each year is dedicated to recognizing the service and contributions of Community Health Centers, while increasing public awareness about the availability of our services.

Health Centers serve as the medical and health care home for over 18 million people nationally – a number that is rapidly growing. Health Centers nation-wide deliver primary care to vulnerable communities who often rely on health centers as their only source of care. The care provided by Community Health Centers is very cost-effective; the primary and preventive services offered reduce the risk of further health problems developing, reduce the need for emergency care and lower the overall potential cost of care.

In our current economic climate, many people who never considered using Community Health Centers before have turned to us for care and find themselves pleased by the excellent quality of care that we provide.

On Sunday, August 9th, 2009 Clinicas Del Camino Real, Inc. will be hosting our 3rd annual National Health Center Week Health Fair. The fair will be held in Del Sol Park (Parque Del Sol), in Oxnard, from 10:00 a.m.-3:00 p.m. This will be our biggest and most exciting Health Fair of the year! Bring the whole family for a fun day of healthy entertainment, health screenings, fitness activities, healthy food, plenty of important health information, and even prizes and give-away items. Also, Clinicas’ health center sites will be offering a variety of free screenings and health promotion programs throughout National Health Center Week (August 9th -15th). These activities will be held at all of our clinic sites. Be sure to check out our calendar of National Health Center Week 2009 activities!
